Siemplify SOAR

Taking Response to the Next Level

Siemplify's cloud-native security, orchestration, automation and response (SOAR) solution empowers security teams to respond to cyber threats in minutes - not hours or days. Siemplify fuses a unique threat-centric approach, powerful yet simple playbook automation, and context-rich investigation to free up valuable time and ensure every security team member is informed, productive and effective.

Benefits

- Automate up to **98%** of Tier 1 tasks to free up time for strategic initiatives

- Reduce analyst caseload by up to **80%**

- Speed response **10x**

Why Siemplify?

Siemplify SOAR enables modern, fast and effective response to cyberthreats by combining playbook automation, case management and integrated threat intelligence in one cloud-native, intuitive experience.

Interpret and resolve threat faster

Shift the paradigm by uniting context with a threat-centric approach, empowering analysts to quickly focus on what's truly important instead of drowning in analysis and data.

Deploy, maintain and scale with ease

Siemplify is designed for fast initial time-to-value and ease of scaling as you grow. Pre-packaged use cases, an intuitive playbook builder, and powerful playbook lifecycle management enable teams to hit the ground running and ensure that over time SOAR increases in value, not complexity.

Capture security operations insights consistently

Empower security teams to consolidate and easily see the scope of activities, generate insights that drive improvement, and measure progress over time - enabling you to be agile, efficient and anticipate future threats.

What you get

Siemplify delivers well beyond customary SOAR offerings to help your security team move beyond the daily cyber grind and concentrate on what matters most: building resiliency and investigating and remediating real threats, fast.

Case Management	Playbooks	Investigation	Threat Intel Platform	Collaboration	Crisis Management	Business Intelligence
